

## Product Information Sheet

---

Product Name: Streptavidin, Horseradish Peroxidase Conjugated

Catalog Number: AS-60668

Amount: 1 mg

Concentration: 1 mg/mL

Degree of Substitution: HRP/protein mole ratio is labeled on each vial.  
(DOS)

Buffer: 10 mM phosphate, 150 mM NaCl, pH 7.2, with 0.5% Proclin 300 as preservative..

Storage: The product is stable for 1 year at 4 °C. DO NOT FREEZE.

Instructions: The suggested concentration for Western blot, ELISA, and immunohistochemistry is 0.1-1 µg/mL.

For *in vitro* research use only
